Loravore® Learning by Bluknowledge
# How To Effectively Engage Learners in Zoom
Facilitated by Dr. Erika D. Tate for Parent University
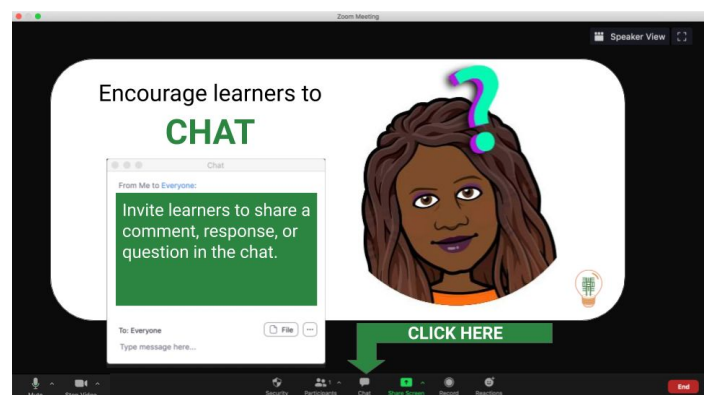

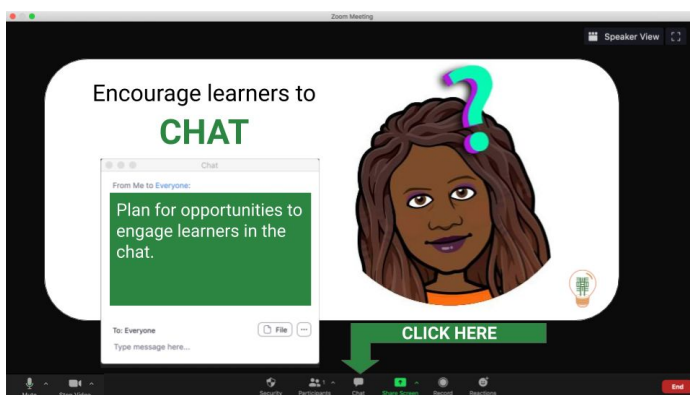

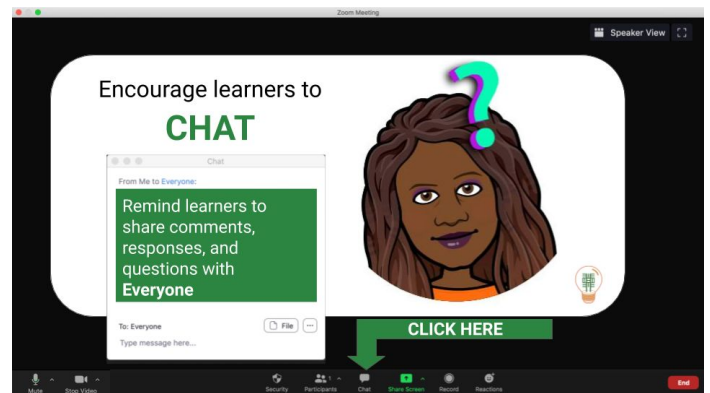

Learning Intention: To demonstrate and discuss Zoom features that can support you to effectively engage learners during virtual instruction.

Success Criteria: I can strategically select Zoom features (views, reactions, chat, share screen) to increase learner engagement during virtual instruction.

Strategically suggest switching between Speaker and Gallery views.

Encourage non-verbal communication.

Engage learners using the chat feature.

Share screen to engage learners with your content.
